

Routine Contact Lens Evaluation and Assessment

A contact lens evaluation is defined as measurement of the size and shape of the cornea, prescription to increase visual acuity, and an assessment of the contact lens on the eye. **A contact lens evaluation is necessary to prescribe contact lenses.** The contact lens evaluation also includes an insertion and removal instructional appointment (if necessary) and three months of follow up care (as recommended by the doctor). The three month follow-up care visits are for appointments related to contact lens evaluation issues only. If a visit is due to another condition, there will be a separate charge. **A contact lens evaluation charge is in addition to routine eye exam, the contact lens supply, or any other charges/services performed by the doctor. All contact lens fitting and evaluation fees are for time spent with the doctor and are non-refundable.**

Routine contact lens fittings/evaluations: These evaluations are for patients who require contact lenses for myopia, hyperopia, astigmatism and/or presbyopia. They are not considered medically necessary. A routine contact lens prescription is valid for 1 year.

	New Patient	Previous Patient
Fitting/evaluation of soft spherical lenses:	\$115.00	\$95.00
Fitting/evaluation of soft toric (astigmatism) lenses:	\$135.00	\$110.00
Fitting/evaluation of multifocal/monovision contacts:	\$180.00	\$165.00
Fitting/evaluation of rigid gas permeable lenses:	\$180.00	\$165.00
Fitting/evaluation of any custom/surgical or keratoconus cornea:	\$200.00	\$185.00
Fitting/evaluation of custom Scleral Lens:	\$300.00	\$285.00

All individual insurance plans vary with coverage or discounts to services or products. Please review your benefits prior to your examination.
